WORK EXPERIENCE

Singularity Future Technology Ltd | Fullstack Software Engineer

Sept 2022 - Present

- Lead end-to-end web app development and cloud engineering, optimizing processes, and boosting efficiency by 35%.
- Diagnose and resolve complex issues on multiple websites for the company and its subsidiaries, utilizing advanced troubleshooting techniques and modern technologies.
- Collaborate with the COO to ensure the efficient and timely delivery of significant projects, resulting in successful completion of a high-priority project within a tight deadline.

Bank of England Mortgage | Loan officer

Jan 2020 – Jan 2022

- Managed and grew a loan portfolio by regularly exceeding sales targets by 20-50%, averaging 50+ loans that totaled ca. \$40M in financing, ranking among the top 3 Loan Officers by sales performance.
- Implemented new risk assessment tools and models for evaluating creditworthiness, resulting in a 25% reduction in loan processing time and a 30% reduction in loan defaults.
- Built and maintained strong relationships with clients, financial institutions, and internal stakeholders, resulting in timely loan approvals and issue resolutions, leading to a 20% increase in repeat business.
- Developed new processes for conducting thorough audits of loan files and documentation by identifying errors and discrepancies, improving my team's efficiency and reducing manual errors by 20%.

Sterling Bank & Trust | Loan Officer

Apr 2019 – Jan 2020

First American International Bank | Loan Officer

Jun 2016 – Apr 2019

PERSONAL PROJECTS

ALWAYS THE WEEKEND | [HTTPS://ALWAYS-THE-WEEKEND.HEROKUAPP.COM/](https://always-the-weekend.herokuapp.com/)

- Developed a user-friendly e-commerce platform using **React** and **Node.js**, managed **CSS** styling, and integrated **APIs** such as Open Weather and Google Maps to enhance the platform's functionality. Led the development of the API, leveraging **PostgreSQL** and **JavaScript** to ensure high performance and scalability.

LOOPED IN | [HTTPS://GITHUB.COM/KENNETHLEE0502/CAPSTONE](https://github.com/kennethlee0502/capstone)

- Led the team in implementing **Material-UI** for styling, **Node JS** for routing, and a **real-time map API** for displaying local eateries. Developed a social media app with **voice AI** that enables users to locate nearby restaurants and food-related information, chat, and post reviews. Stored user data in **PostgreSQL** and served as the lead developer for speech AI.
